BLON 品牌故事

起：

B · L · O · N 意为 building the legend of nobles，意在创造追求高品位、高品质的产品。

我们的创始成员中有热衷中国传统艺术文化和现代音乐的年轻人，也有从事电声行业近二十年经验丰富的老工程师，我们通力合作，将丰富的电声技术和传统文化相结合，制造出用于诠释现代音乐的产品。

在 BLON 经历的这几年里，我们在品牌的道路上摸索前进，历经挫折也不断提升我们的理念，这其中艰辛、有纠结、也有惊喜，而我们也在这条道路上坚持着最初的目标，一步一步走到现在。

如今的 BLON 虽然没有取得极大的成功，却让我们看到了多年奋斗带来的成果，也看到了走向未来所需要做出更多的努力和改变，这一切都源自这些年所经历的艰辛、所积累的经验、以及我们一直以来坚持的梦想和期望。

承：

一直以来，中国的耳机品牌都跟随国外品牌的脚步，虽然整个行业在这几年里获得了很大的进步，但也因此并没有自己的特色，缺乏对于自身文化的自信。曾经我们的创始人希望能有一款拥有中国文化元素的耳机，拥有比肩世界知名品牌耳机的素质，和符合中国文化在音乐领域造诣的声音风格——但是并不存在这样一款产品。

于是 BLON 诞生了，中文名“宝龙”，这也是一个传承中华语言文化中对于精品追求的名字。一直以来我们不断尝试将代表中国文化元素的材料和设计运用在耳机产品中，便是为了诠释这一理念和追求。

转：

耳机不是花瓶，设计虽然体现着思想和格调，却取代不了它所必须追求的另一个要素——声音。中国人向来讲究文武双全，中国人的作品也不例外：美丽的外形需要与优秀的音质共存，才能够让耳机体现出它的价值。

好在我们的团队中有经验老道的电声工程师，跨越近二十年的电声行业背景，让我们对耳机在这些年的发展和历程有着清楚的认识，也让我们拥有制作出具备国际实力的高音质的能力；先进的材料与声学设计的运用让我们的产品能够跟上时代的脚步，不断运用最新的技术去制造出具有优秀音质的耳机。

合：

士，知耻而后勇；想要取得成绩，必须意识到自己的不足，然后开拓进取。我们秉承谦虚谨慎的态度对待我们的品牌，为了让它走得更长更远，为了期许终将成为现实。

在未来的道路上，创造 BLON 的我们，也会为我们所深爱的 BLON，继续潜心耕耘，为明天披荆斩棘。

使用方法

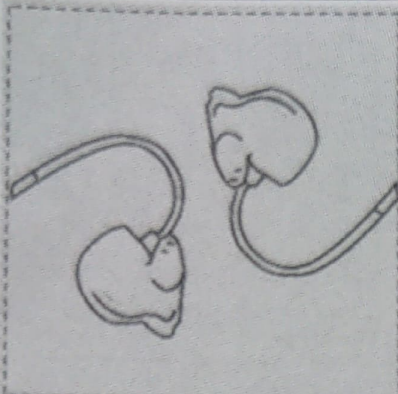

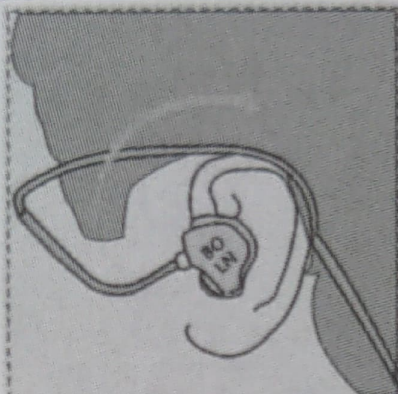

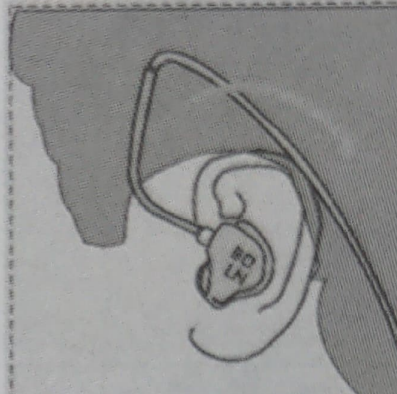

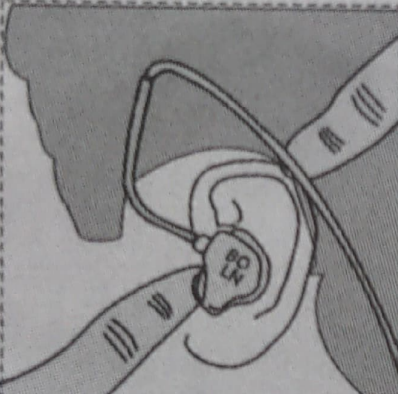

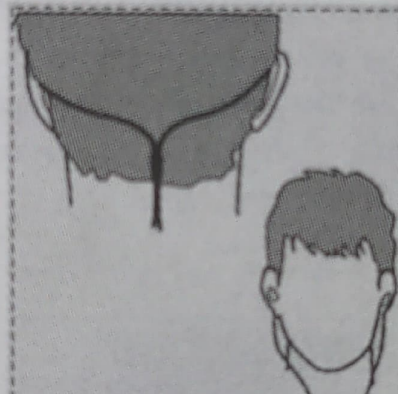

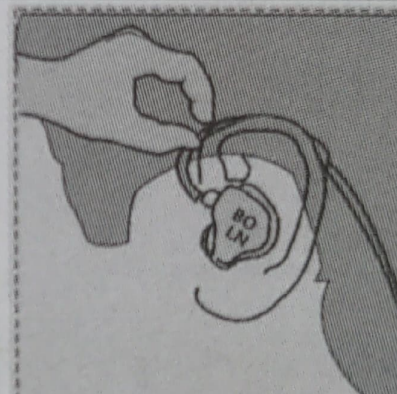

操作耳机之前，请仔细阅读本手册并妥善保管，以备将来参考。

耳机使用方法

L 标识：左耳佩戴

R 标识：右耳佩戴

佩戴指引

		
第一步 正确区分左右耳机，注意耳机插头上‘L’及‘R’标记，‘L’用于左耳，‘R’用于右耳	第二步 将耳机顺着标记的正确方向平直插入耳内，插入时轻微旋转，插入后轻轻按压耳机，正确佩戴后，耳机可与耳朵紧密配合，耳朵舒适，隔音性能佳	第三步 将耳机定型线固定在耳朵后边
		
第四步 按住面板，调整密封度	第五步 调节耳机定型线固定好耳机线	第六步 将耳机插头插入播放设备即可使用耳机 插入设备前注意先调节好设备音量，扎紧耳机线，完成

常见问题及解决方案

为了佩戴更加稳固舒适，部分耳机我们配备了不同规格的耳塞，建议您按自身情况选择相对舒适的款型佩戴。

以下几种情况可以避免电流声：

1. 播放设备远离强磁场，强声波环境；
2. 将插针拔出再完全插入插孔；

3. 换高音质音频文件;
4. 新耳机未经煲机, 多磨合几小时即可;
5. 连接 PC 端或接外置声卡时, 请关闭麦克风增强功能;
6. 请不要边充电使用。

入耳式耳机由于耳机线或单元处与空气碰撞易产生闷声噪音传入耳道, 影响视听体验, 遇到此情况您可以用线夹将耳机固定在衣服上减少摩擦, 以此减轻听诊器效应。

若在语音或者录音的情况下发现声音发闷或者不清晰的情况, 您可以尝试用针轻插进录音小孔清洁内部, 同时排查录音设备功能是否出现故障, 以及录音软件设置是否正确。

注意事项/温馨提示

初次使用全新设备请先调小音量, 后逐渐提升, 以保护听力和耳机振膜。

如耳机插针或播放器插孔沾污异物, 可能引起声音失真, 请定期清洁耳机插针以及耳塞。

耳机不使用时请置于收纳盒或洁净环境中, 勿将耳机暴露在高湿热、强腐蚀、强磁场环境中。

耳机高音量收听可能会影响您的听力。

为了您的安全, 在过马路时请勿佩戴耳机。

为了表示对他人的尊重, 与人交谈时请勿同时佩戴左右两边耳机。

为了您的身体健康, 进食时建议不要使用耳机观看视频或者聆听过于激情的音乐。

为了减少耳机被丢失, 遗忘的概率, 建议在室外使用耳机时, 将耳机用线夹固定在衣服上, 勿置于桌椅等被忽视的地方。

PROBLEMS AND SOLUTIONS

Part of the earphone model, we had equipped with earplugs with different specifications for wearing the earphone more stable and more comfortable. You can exchange the earplugs according to your own cases if it is not stable.

The following cases can avoid the current tone.

1. The playing devices shall be away from strong magnetic field and strong sound wave environment.
2. Plug pin out completely and then plug it into the jack.
3. Change to high quality audio file.
4. The new earphones are not burned, there should be several hours for break-in.
5. Please kindly close the enhancements of microphone when connecting pc terminals or external sound cards.
6. Please do not charge while using.

Due to the collision between earphone wire or the unit and the air, the in-ear earphones are easy to produce the muffled noise and then flow into the ear. This will affect the audio-visual experience. In this case, you can fix the earphone cable to cloth with clip for reducing friction and the stethoscope effect.

If there are muffled noise or unclear voice under voicing or sound recording, you can try to use needle to insert the recording hole slightly for inner cleaning; meanwhile, please kindly check whether there are function failure from recording equipments and whether recording software setting is correct or not.

NOTICE/WARM TIPS

Please kindly turn down the volume at initial use of new earphones, and then gradually increase the volume, to protect the eardrum.

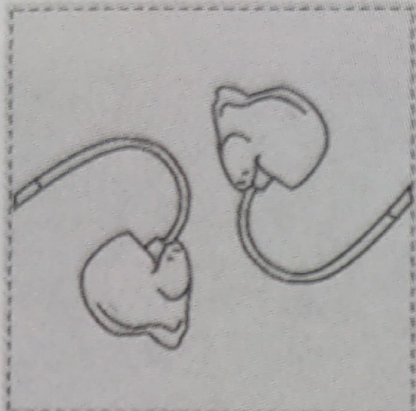

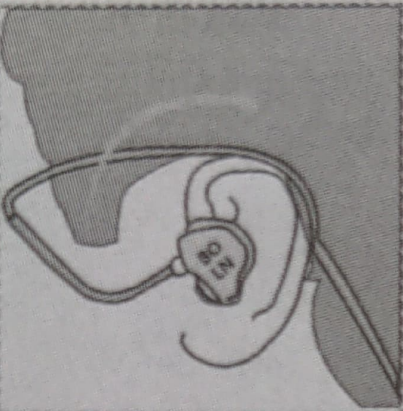

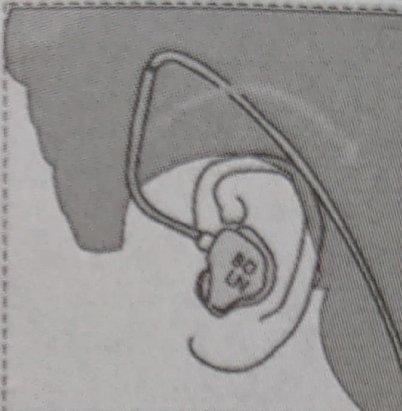

If there are foreign matter in earphone pin or amplifier jack, it can cause sound distortion. Please kindly clean the earphone pin and earplug regularly.

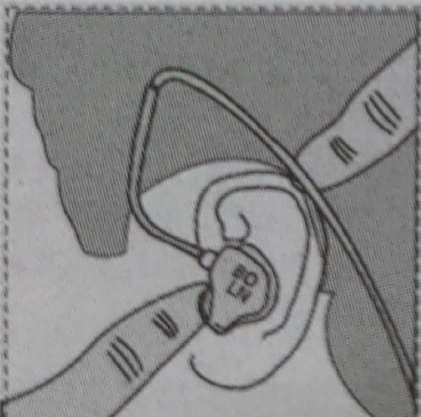

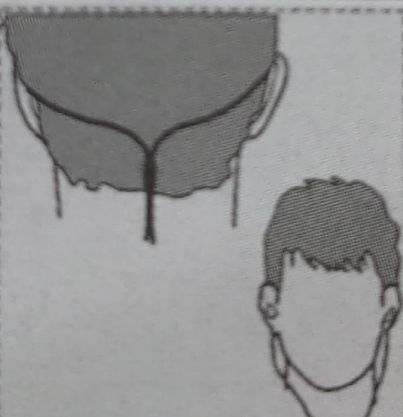

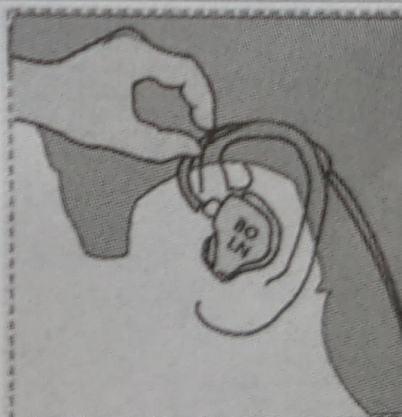

Please kindly place the earphone in storage box or clean environment when you do not use the earphone. Please do not expose it to the environment with high humidity, strong corrosion and strong magnetic field.

It may affect your hearing, if the earphone is in high volume.

Please do not wear the earphone while crossing the road for your safety.

Please do not wear both the left and right sides of the earphone at the same time when talking to others for showing respect to others.

		
Step one To correctly distinguish between left and right headphones, pay attention to the 'L' and 'R' marks on the headphone plugs, 'L' for the left ear, 'R' for the right ear	Step two Inserts the headset straight into the ear along the correct direction of the mark. The headset is slightly rotated during insertion. After inserting, the headset is pressed gently. After being worn correctly, the headset can be closely matched with the ear. The ear is comfortable and the sound insulation performance is good.	Step three Secure the earphone line behind the ear

		
Step four Hold the panel, adjust the seal	Step 5 Fixed earphone wires for adjusting earphone stereotypes	Step six Plug the headphone into the playback device to use the headphone before inserting the device to pay attention to adjust the device volume, tighten the ear wire, complete

Turn

The earphones are not like vases. Although the design reflects the thoughts and styles, it can't replace another indispensable element- the sound. The Chinese attach great importance to being adept with both the pen and the sword, and the Chinese works are no exception; the beautiful shape needs to coexist with excellent sound quality, which can make the headphones perform its value.

Fortunately, our team has experienced electro-acoustic engineers with the background of the electro-acoustic industry for nearly two decades, enabling us to have a clear understanding of the development and history of headphones in these years, and making us have the ability to produce high-quality sound with international strength; The use of advanced materials and acoustic design allows our products to keep up with the times, and we will constantly use the latest technology to create headphones with excellent sound quality.

Combination

The soldier will be brave after feeling ashamed. If you want to achieve something, you must know your own shortcomings first, and then fight for it. We treat our brand by adhering to the attitude of modesty and cautiousness, which is to make it go further and long, and to turn the expectation into reality.

In the future, we, who have created BLON, will continue to work hard for our beloved BLON, and to overcome all the obstacles for the promising tomorrow.

WEAR GUIDELINES

Brand story of BLON

Start

B·L·O·N refers to building the legend of nobles, which aims to create and pursue high-standard taste and high-quality products.

Among the founding members, there are young people who are keen on traditional Chinese art culture and modern music, as well as experienced engineers who have been engaged in the electroacoustic industry for nearly 20 years. We work together to combine the rich electro-acoustic technology with traditional culture to create products that interpret modern music.

In the past few years of BLON, we have been advancing on the road of brands, and we have continued to improve our philosophy regardless of the setbacks. There are hardships, hesitations and surprises, and we have been sticking to our original goals on this road, insisting until today little by little.

Although BLON has not achieved great success, it has made us see the results of years of struggle and the efforts and changes required for the future, all of which derives from these years of hardship, accumulated experience, as well as the dream and expectation we have been hold onto.

Inheritance

All along, China's headset brands have been following the foreign brands. Although the whole industry has made great progress in recent years, it does not have its own characteristics and lacks confidence in its own culture. Once our founders hoped that, there would be a headset with Chinese cultural elements, which has the quality of the world-renowned brand headphones, and the sound style of Chinese culture in the music field - but there is no such product.

As a result, BLON was born, whose Chinese name is "Baolong", and it is also a name that inherits the pursuit of quality in Chinese language and culture. We have been trying to apply the materials and designs that represent Chinese cultural elements to the earphone products all the time, thus interpreting this concept and pursuit.
